🐙 github.com/Chandu7a7

SUMMARY

Dynamic Full-Stack Engineering intern with hands-on experience in building responsive and interactive web applications. Proficient in React, Node.js, Express, and MongoDB, with a commitment to writing clean, high-quality code. Adept at collaborating in team environments to deliver robust and scalable solutions.

TECHNICAL SKILLS

Programming Languages: Java, C, Python, JavaScript

Web Technologies: React.js, Node.js, Express.js, HTML, CSS, JavaScript, Tailwind CSS, API Integration

Database: MongoDB, SQL (Basic)

Tools / Platforms : VS Code, Git, GitHub, Postman, MongoDB Compass, Vercel, Netlify

Subject: Operating System, Computer Network, Database Management, Structure

Methodologies: Agile, Version Control, GitHub Workflow

PROJECTS

Purulia Traveler website [↗](#)

07/2024 - 09/2024

- Built a responsive travel website using the MERN stack, with features such as dynamic routing, user-friendly navigation, and real-time content updates to improve user engagement. Implemented a reusable component structure to enhance development efficiency..

Connect Shiksha Coding School [↗](#)

04/2024 – 07/2024

- Developed an interactive coding school website with form validation, user authentication, and optimized cross-device performance, ensuring smooth accessibility and engagement. Utilized the MERN stack to provide a responsive, accessible interface for course details, testimonials, and real-time enrollment.

Renewo [↗](#)

08/2023 – 10/2023

- A full-stack eCommerce app built with **Django, HTML, CSS, JavaScript, and MySQL**, developed during a hackathon. Promotes sustainability through the resale of recycled products, featuring secure authentication, CRUD operations, responsive UI, and payment integration, optimized for scalability and data integrity.

EXPERIENCE

Web Developer Intern,

Connect Shiksha (07/2024 - 08/2024)

- Collaborated in a team environment to develop and maintain web applications using the MERN stack, focusing on backend optimization and frontend responsiveness. Implemented features like user authentication, booking management, and real-time updates.
- Worked on two projects during the internship program: Purulia Traveler Website and Connect Shiksha, where I utilized the MERN stack for development.

EDUCATION

Institute of Engineering & Technology, DAVV, Indore

Bachelor of Engineering in Computer Science

September 2024 – Expected 2027

CGPA: 8.88/10 (3rd semester)

Government Polytechnic College, Balaghat, Madhya Pradesh

Diploma of Computer Science and Engineering,

December 2021 – May 2024

CGPA: 8.88/10

CERTIFICATIONS

- Participated in the 2023 Inter-Polytechnic Hackathon at S.V. Polytechnic College, Bhopal.
- Completed Networking CCNA & Cloud Training Program.
